Autumn 2004

Club Championships

The fellrunning season came to an end with 2 Breweries last weekend as far as club counters are concerned. Mark DS comes out on top with 4 clear wins giving him maximum points. Angela Brand Barker takes the ladies title, not to mention the LV40 category. As each category is calculated in its own right it is impossible to print out all the tables that would involve. Sift through the table and you should be able to work out who is top of what.

Congratulations to Angela and Mark and to all who helped to form the heaps for them to finish on the top of!!

FRA Championships

English

Louise took first place with maximum points with the ladies team placing 6th

Jane Meeks was 9th in the LV40 category and Cathy Colam 7th in the LV50

MDS finished 12th Nimrod 42nd and Dave Troman 51st Dunc Overton was 2nd in the V50 and Sped 9th

The mens team were 10th

British

Whilst final tables are not to hand I can say that Dunc O & Sped finished 2nd and 3rd respectively in the V50's

Full listings when available can be seen at www.fellrunner.org.uk

The Thursday night ladies runs continue to flourish. During the Summer months we had up to fourteen ladies out, and we have had good turn outs at several races, Hawkshead 10K in particular, with Lords Seat and Round Latrigg close behind. With the darker evenings approaching, several of the ladies will be meeting Tuesdays for speed training and the normal social run on a Thursday.

All ladies welcome, meet 6.15pm Rawsley Pavilion. Pat Richards

Keswick AC travelled to Switzerland for the international Matterhornlauf which starts in Zermatt. 14Km with 1000m of ascent, starting altitude is 1600m above sea level. The race attracts a good field -including Billy Burns, a contingent from Mexico and a strong local contingent.

20th Mark Denham-Smith 1:15:23

56th Nimrod Lockwood 1:22:46

188th Keith Hill 1:35:58

146th Lady; Susan Denham-Smith 2:41:55

Altitude was certainly good for 5 mins [or bad ed.] as we flew out on Saturday and raced on Sunday. Excellent run by all which was enough for third team prize (winning enough to cover the flights). Susan has recovered from her 24 Hour epic and had an excellent run.

MDS

Yahoo forum group for Keswick AC

Injuries are part and parcel of the business of running, but if you can minimise them and get over them as quickly as possible it all helps to keep a smile on your face. One of our new members has come up with a question and answer proposal and as he seems to be pretty well qualified to take it on, let's give it a go.

"I am a relatively new member to Keswick AC. Although I live in Sheffield the club has always been close to my heart as my father was a member many years ago and both my parents are from Workington. Previously I have run for Dark Peak Fell Runners but I had always felt that I wanted to be a member of Keswick. My employment is with UK Athletics as their Chief Medical Officer and I include in the newsletter a brief run down of the Olympic games from my perspective. [ed next edition!] I hope this may be of some interest. However I would also like to offer any members the opportunity of a "Question and Answer" section via the e group that seems to work so well. This would be concerning medical problems/injuries in relation to your sporting performance and obviously there would be no confidentiality as the information would be shared with the group. You may have problems with a recurrent Achilles problem for example, or an unresolved back pain. I hope I am able to offer the club something in return for what it offers me. I would endeavour to answer any questions within 48 hours.

Good luck and I hope to see you at the AGM.

Bryan English"

keswickac@yahoo.co.uk is the name of the group and all members on line will be sent an invite to join. If your invite expires before you get round to accepting it [7days] you will need to request a new one from Pete Richards.

As it is a general keswick ac group I can't see any reason why it can't be used for other questions-- just throw your question in and wait for a reply. Could be handy for lifts to races etc. --my first would be to locate a copy of the very few newsletters that are missing from a full set from the time I joined.

The Annual General Meeting

The AGM is on **Tuesday 16th November** at 8pm at The Rawsley Pavilion, Main Street, Keswick. All members are welcome to attend, in fact it would be great to see you all there!! Items for the agenda and nominations for the committee must be put in writing to the club secretary, Pete Richards at least 2 weeks in advance.

Annual Presentation Dinner

This year's dinner is being held at Keswick Golf Club, Threlkeld on **Saturday 27th November**, 7pm for 7.30pm. There will be a 3 course dinner with tickets priced at only £10. These can be obtained from Pete Richards from Friday 15th October. Bring guests and as we are limited to 50 get your tickets early!!.

Before the event you may wish to consider who to vote for as the club personality of the year. If you send or hand in your vote in a sealed envelope it will be used, whether you attend the dinner or not, in the ballot providing it is received before the event.

Any nominations to be considered for the annual Bob English long distance running award should be sent to Pete Richards or make it known to any committee member.

Secretaries Musings

With the last of the Summer Training Runs over, it does feel as though getting out on the fells in the evenings is over for the year. There were good turn outs at all the runs with 20 members out at Coledale and 17 at Buttermere. Both runs were blessed with wonderful weather whereas the 3rd at Rosthwaite was in terrible wet and windy conditions. So it was pleasing to see several of our newest lady runners making light work of a very tricky route. I am not alone in having high hopes for several of these new additions, they are certainly well practised in the art of liquid replacement after training!.

Another recently joined member is Bryan English, who is the UK Athletics Chief Medical Officer. Bryan has very kindly offered to answer questions on sports injuries and we have decided to undertake this on the internet. Apologies if this does not include all members but the vast majority of you are now on line. I have set up a Yahoo Group (keswickac) which all members will be offered the chance to join. This could also be used for sharing photographs, posting information and anything else which you feel may be of interest to the rest of the membership. Only members of the club will be able to join.

Elsewhere in this newsletter are details for the twice weekly training runs which will be based again at The Rawnsley Pavilion. This facility is proving to be a great asset, especially on cold wet evenings. The training runs are being planned to suit everyone fast and slow. The ladies will continue to have their own session on Thursday's and are also welcome on Tuesday evenings.

Hope to see you there! Pete

Birth Announcement

Claire Spedding gave birth to Eliot in Metz France on the 8th Aug. 2004 8lbs 4oz if my conversion is right [3.75 kg]

Paul Roffey, a new member, is a Practicing Chiropractor and Podiatrist in Keswick and has offered to do a series of articles relevant to running. **no 1---**

The gait cycle

When we're out having a run most of us don't think about what's actually happening in the foot and lower leg that keeps us moving along. In too few words to do the complexity justice, I shall try to explain.

The feet are an extremely complex structure with 52 bones (about ¼ of all the bones in the body), 33 joints, 107 ligaments and 19 muscles. These all work together to enable us to stand and move. The gait cycle is the range of motion of one stride.

The gait cycle is divided up into two main stages, the stance phase, when the foot is in contact with the ground and the swing phase, when it isn't! The stance phase is then divided into three. Heel contact, mid-stance and toe-off

Let's start with the left leg. The right leg is firmly on the ground and the left has just finished its swing phase. The stance phase starts with heel contact and the heel of the left leg striking the ground. The foot hits the ground slightly inverted (the inside edge of the foot is tilted up), which is why shoes generally wear on the outside edge first. It then momentarily everts (inside edge tilts downwards), the lower leg internally rotates and the knee flexes. A very important bit this, as this is the body's natural shock absorber. Without it the force of the moving body weight would transmit straight up into the pelvis and spine with painful results. This natural movement of the foot and leg also helps to adapt the body to any uneven terrain.

Straight away the foot will then start to invert, the lower leg will externally rotate and the knee will extend. The right leg will then leave the ground and start its swing phase. Mid stance runs from this point until the right leg has heel contact. The left foot remains the stable platform during this time.

When the right leg has landed the left heel will raise starting the last phase. The left foot will continue to invert and the lower leg externally rotate creating a rigid structure within the foot for toe-off and propulsion forwards. At this point the forefoot is carrying two and quarter times the body weight. As the weight moves forward to the ball of the foot, it is transferred from the outside to the inside and the weight is taken on the big toe, and the 2nd and 3rd toes. Body weight is then transferred to a stable right foot and the left foot leaves the ground. It's much easier to understand if you stand up and go through the motions as you read, only hold onto something otherwise you'll fall over – I know!

Running differs from the above in that the swing phase is increased and the contact phase is decreased. Also, with running there is no period when both feet are on the ground and on heel contact the foot also needs to evert more to shock absorb more. But the biggest difference is that instead of 2-3 times the body weight passing through the body with each stride when walking, 5-6 times passes through when running.

Next time we'll look at some of the common biomechanical problems that arise when the above processes don't happen as they should.

Date	Event	Notes

Training Fourth quarter 2004

Winter is here again – consequently the training will decamp to the usual round-town haunts. Duncan Overton has agreed to take Thursdays, with myself continuing with the usual Tuesday format. The emphasis will be on Speed Sessions but will be inclusive of all abilities.

Tuesdays will be an Endurance Speed Session – ie reps of 90 seconds upwards – with a monthly handicap thrown in on the last Tuesday of the month. Thursdays will be Duncan's 30 second type efforts. If the one in the park last month was anything to go by these are hard work. [ed a round town social run is also an alternative on either night]

Speedwork is a quick route to injury (currently speaking from experience!) and everyone is welcome at the sessions – but please feel under no compulsion to go eyeballs out every rep! We would sooner you all slacked off where necessary and remained competitive.

5th Oct. Paired 400m relay – 30 min effort

12th Oct. Lakeland Park Pyramid – 700, 1400, 2100, 1400, 700

19th Oct. Return of an old favourite – the 1 Km hill. 3 Repts.

26th Oct – Handicap – round town route

2nd Nov Paired 400m relay – 30 min effort

9th Nov Lakeland Park Pyramid – 700, 1400, 2100, 1400, 700

16th Nov – Paulauf – (set off opposite directions round town, turn round when meet partner)

23rd Nov. 1 Km hill – 3 Repts

30th Nov – Handicap – round town route

7th Dec Paired 400m relay – 30 min effort

14th Dec Lakeland Park Pyramid – 700, 1400, 2100, 1400, 700

21st Dec – Handicap – round town route

28th Dec – No organised training.

Please feel free to feedback – good ideas will be incorporated into future schedules.

Editors /captain's note

At recent meetings it has been felt a need for regular Sunday runs. As no one is prepared to say they will organise something every week it is hoped that something informal will evolve. Perhaps the forum could be used to say what you are going to do on a Sunday and others can join in. If I am in Keswick and there is no race on I will go to the Cenotaph at 10.0 am and run on my own if no one is there, if someone arrives that's fine. I will be looking for a minimum of 1 ½ to 2hrs out e.g Glenderaterra/Blencathra Centre round or Watendlath /Rosthwaite loop. Steve Fletcher is getting a similar shorter thing going with the juniors, but as they are meeting at noon at Whinlatter that is a bit late for me, but if it suits you join the "Sunday lie in" group. I would add that I am more often not in Keswick than I am, so don't expect me there every week-- however if 2 turn up then we have got it off the ground. Likewise if I am in town on a Tuesday or Thursday I will turn up at the Rawsley Hut and do a minimum of one loop of the town and welcome a bit of company. I know there are people who have been put off by the intense style training that has prevailed over the past few years; my training is based on as much mileage as I can handle[30-40] with a hardish few miles once a week and that way I can race reasonably well and keep injury to a minimum. I use cycling the day after a race for example and when the sun shines! A few races early in the year to wake you up and away you go. The formula has worked for me for at least 2 decades--- but I am not a coach and am merely saying what I do.

I also know full well that people do respond to the hard training, but if it's not for you don't despair enjoyable running is allowed!

Fell Races to look forward to

Next season could see the following races as being of importance although nothing is official;

British;-- S Edale; Pen Y Fan; M Molwyn Peaks; Dollar Hill; L Spelga; Wasdale;

English;-- S Edale; Wrekin; M Whittle Pike; Sailbeck; L Wasdale; 3 Shires;

You could bank on 3 of that lot being in the club championship I would say.

More imminent you might fancy the following fell races;-

Sat 23rd Oct **Screes Fell Race** from Screes Hotel Wasdale £4-50 on day 5mile 1560ft includes tatie pot/ veg alternative Low key long outrun/return with good climb to Whin Hill inbetween.

Sat 6th Nov **Dunnerdale** 12.noon 5 mile 1800ft from the Blacksmiths Arms Broughton in Furness £4 on day includes food www.bcrunners.tripod.com

This is a great race if you have not done it-- a victim of it's own success in that you can expect 150 or so on the start line! Trying to get back first for the food. Well worth the trip.

Sat 20th Nov **Kirkbymoore** B category 11.0 am 6.5 miles 1600 ft from Beckside Village Hall Kirkby in Furness £3 on day Same website as above. A bit more in the x country style- relaxed atmosphere. See some windmills close up! If you get it wrong you will see some heather close up as well.

Bridge the gap to the west and try these races; there isn't much else on offer and we don't all have 3 heads down west you know! There's a good chance I'll be in the South of France when these 3 races are on ,but if not I will certainly be on the start line.

The Junior home internationals are being hosted at Keswick on the 10th October with Steve Fletcher and Chris Knox being our main people involved. If you can help out in any way give either of them a call. The first race is at 10.15 am. It will be the best ever I reckon with well over a 100 entries already. There are various routes over Latrigg with details posted on the club website. The start and finish area is just on the top side of Spooney Green Lane Bridge.

On the Subject of juniors;---

JUNIOR HIGHLIGHTS

Club Junior Fell Championship – Jessica Bibby was the overall winner and first girl, Ben Farrell second overall and first boy. Ross Brewster has kindly offered to donate an annual prize for the 'most improved athlete'. Watch this space for the winner.

Club Vests – Matthew Atkinson, Jessie Bibby, Rosie Cornthwaite, Ben Farrell, Siobhan Lamb, Emily Knox, Joe Quail, Samantha Quail and Ted Yates have all won club vests for commitment to the Club Fell Championships.

English Championships – Ted Yates had a fantastic series in the U14s with a 1st, a 2nd and a 3rd leaving him 4th overall.

Charity Marathon – the Juniors raised £165 for Macmillan Cancer Relief.

Cumbria Cross Country Series – we're helping organise a new series of cross country races. Although the emphasis is on juniors **there will be a senior race**. Races: Cockermouth October 2nd, Keswick November 13th, Carlisle or Wigton December 11th, and TBA January 15th.

Open British & Irish Junior Hill Running Championships (inc. the Junior Home Internationals) – we're hosting the Championships on behalf of the FRA on Sunday October 10th on Latrigg. Cracking courses, intense competition between some of the finest young runners in Britain and Ireland, good weather, enthusiastic support, ... what more could one ask for? Why not come along and take a look the races? They start at 10:15 on Spooney Green Lane there'll be lots on Keswick vests in evidence and with over 170 runners pre-entered they'll need lots of support.

Membership – there are over fifty junior members now of whom thirty-five or so are active.

Training – unfortunately I've not got the final quarter's programme sorted out yet as we'll be beginning serious winter training after the Open British & Irish. The 'serious' Wednesday and Saturday group is going from strength to strength. Both Emma and Rosie Stuart have been selected to represent England at the Junior Home Internationals and we're hoping for several top ten places. That leads to an ...

Invitation – the Juniors will be going on a long run (45 mins to an hour at a steady pace, a couple of different pace groups) every other Sunday from the Whinlatter visitors centre car park starting from Sunday October 24th. Seniors are welcome, give me a call (79362) if you're interested or just turn up.

JUNIOR CHAMPIONSHIP STANDINGS

		Age	Tr'tbeck	C'sey Pike	B'mere	Helvell	Langdal	Latri	3 Shires	Total
			Points	Points	Points	Points	Points	Point	Points	
J	Bibby	U14	18	17	17	6	20	18		90
B	Farrell	U17	18	18	18	15		18	10	87
M	Atkinson	U10	9	20	20	17	7	16	7	84
R	Cornthwaite	U14	16	15	16	7	20	17	14	84
S	Lamb	U10	7	20	20	17	18		7	82
E	Knox	U17	18	18	18	13			14	81
J	Quail	U12	13	17	17	10	15	17	13	79
T	Yates	U14		16	18	18		1	17	70
S	Quail	U10	5	18	20	17			1	61
T	Strong	U14	12	14		9			6	41
L	Vaillant	U12	16	17						33
L	Hind	U12		16			16			32
D	Robinson	U12		12	14	0				26
C	Brand-Barker	U14	9		10					19
J	Hind	U10				12				12
K	Vaillant	U12	12							12
O	Bibby	U10	2							2

The best five results from the seven race series will count towards the final position.

- 2 **Jessie Bibby** is our overall winner and first girl. **Ben Farrell** is first boy. Congratulations.
- 3 Everyone who competes in five races will receive a KAC running vest. **Jessie, Ben, Matthew, Rosie, Siobhan, Joe, Emily, Sam and Ted** have all qualified for a Keswick AC vest. Congratulations.
